

OVA-AI

“Where AI Meets Her Health”

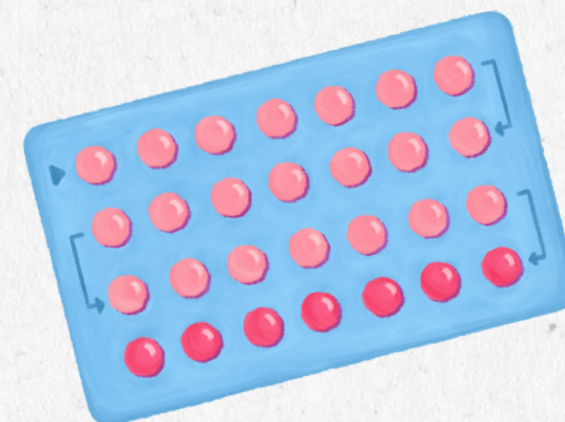

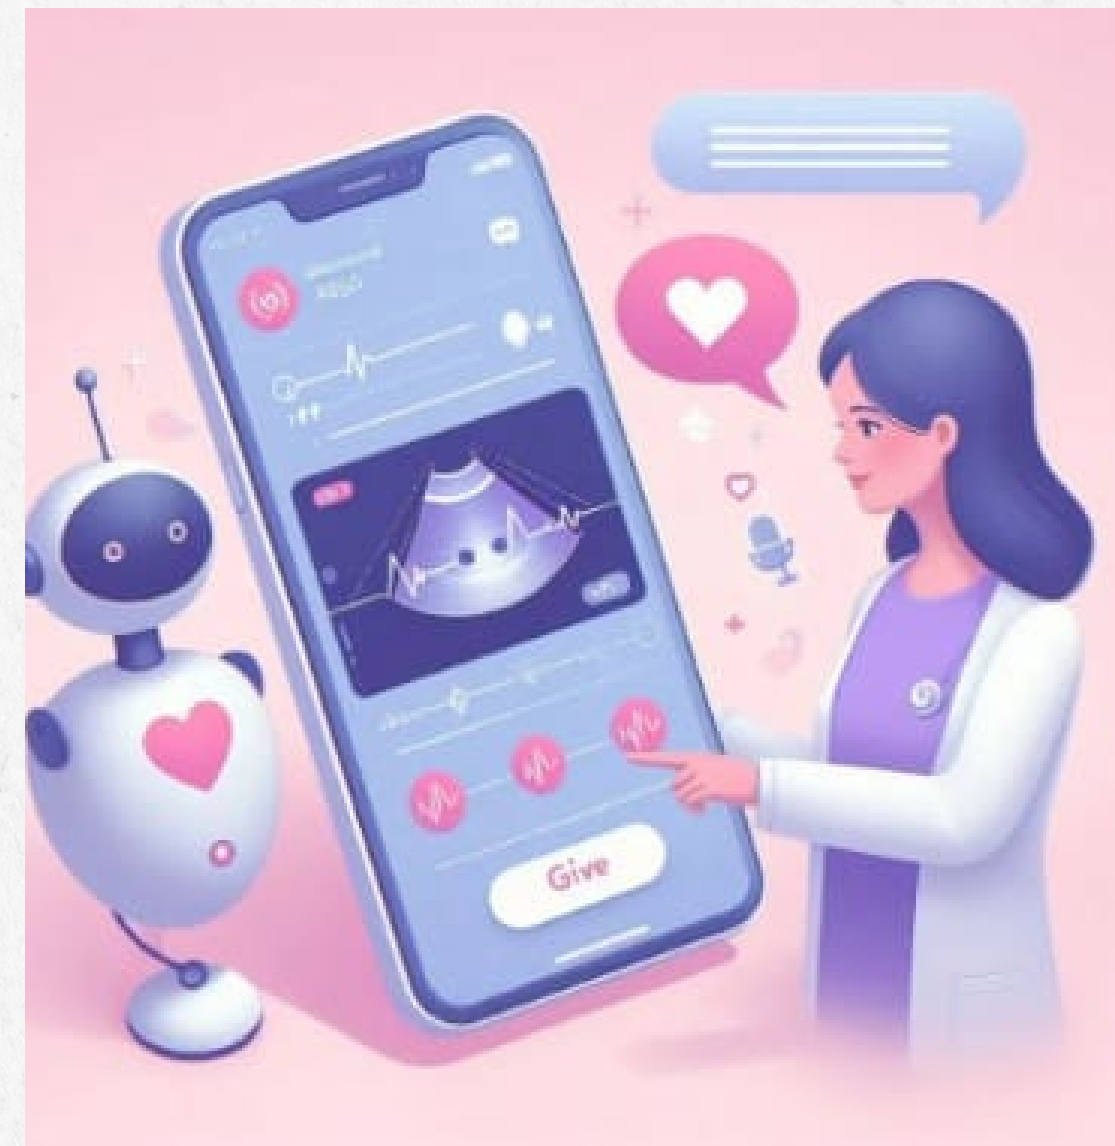

THE PROBLEM :

Polycystic Ovary Syndrome (PCOS) is a silent epidemic—affecting over 1 in 5 women in India, often undiagnosed for years. Its long-term impacts—infertility, diabetes, obesity, anxiety—are devastating. The real issue? Delayed detection, lack of awareness, and limited access to early screening.

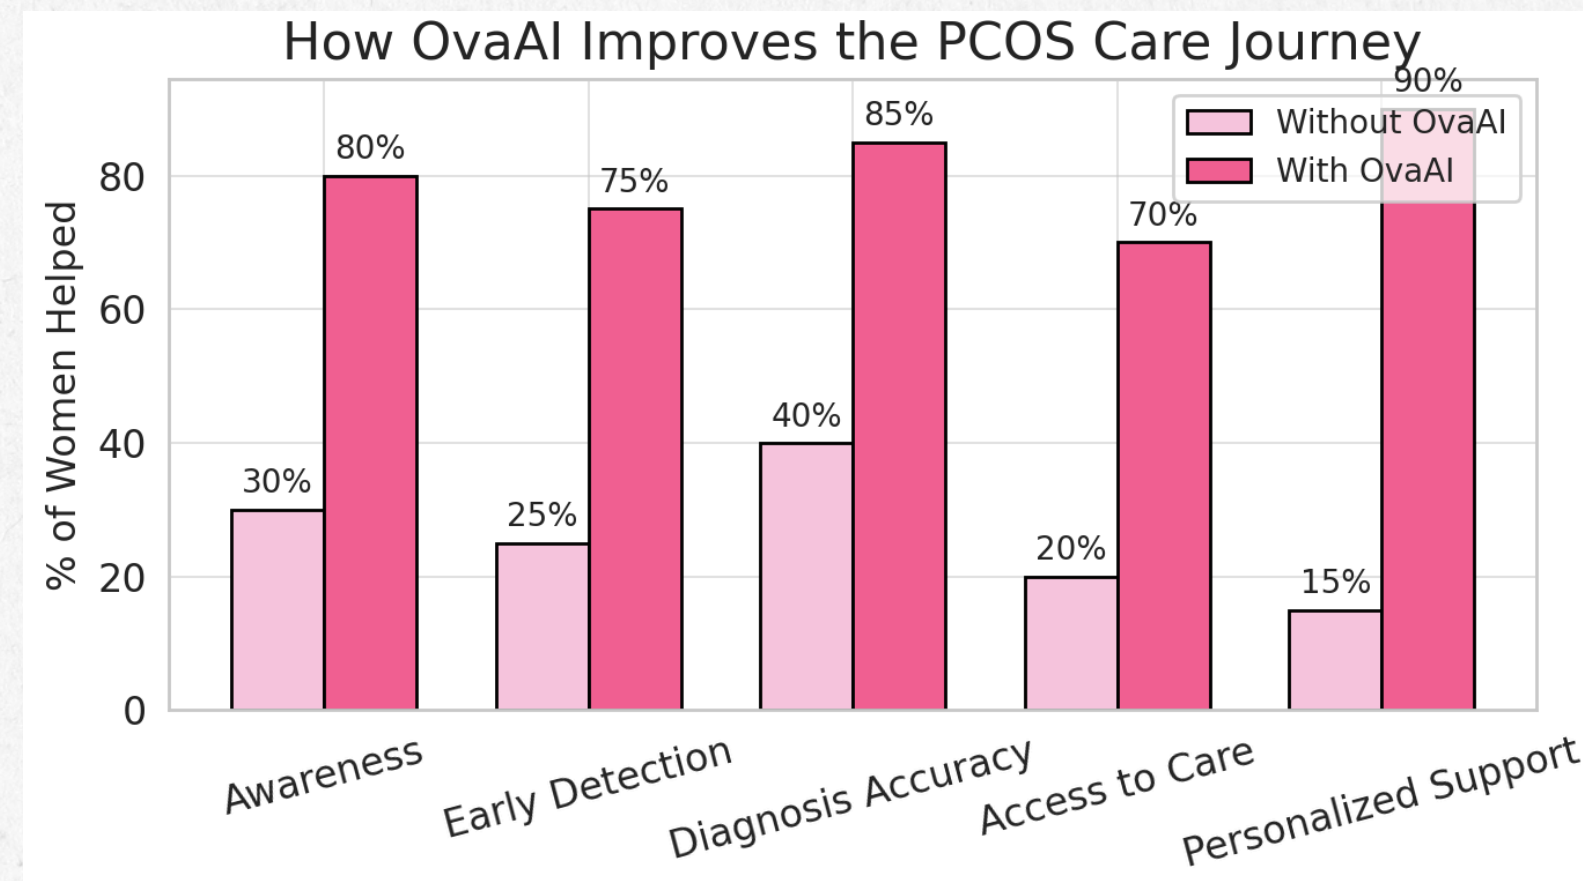

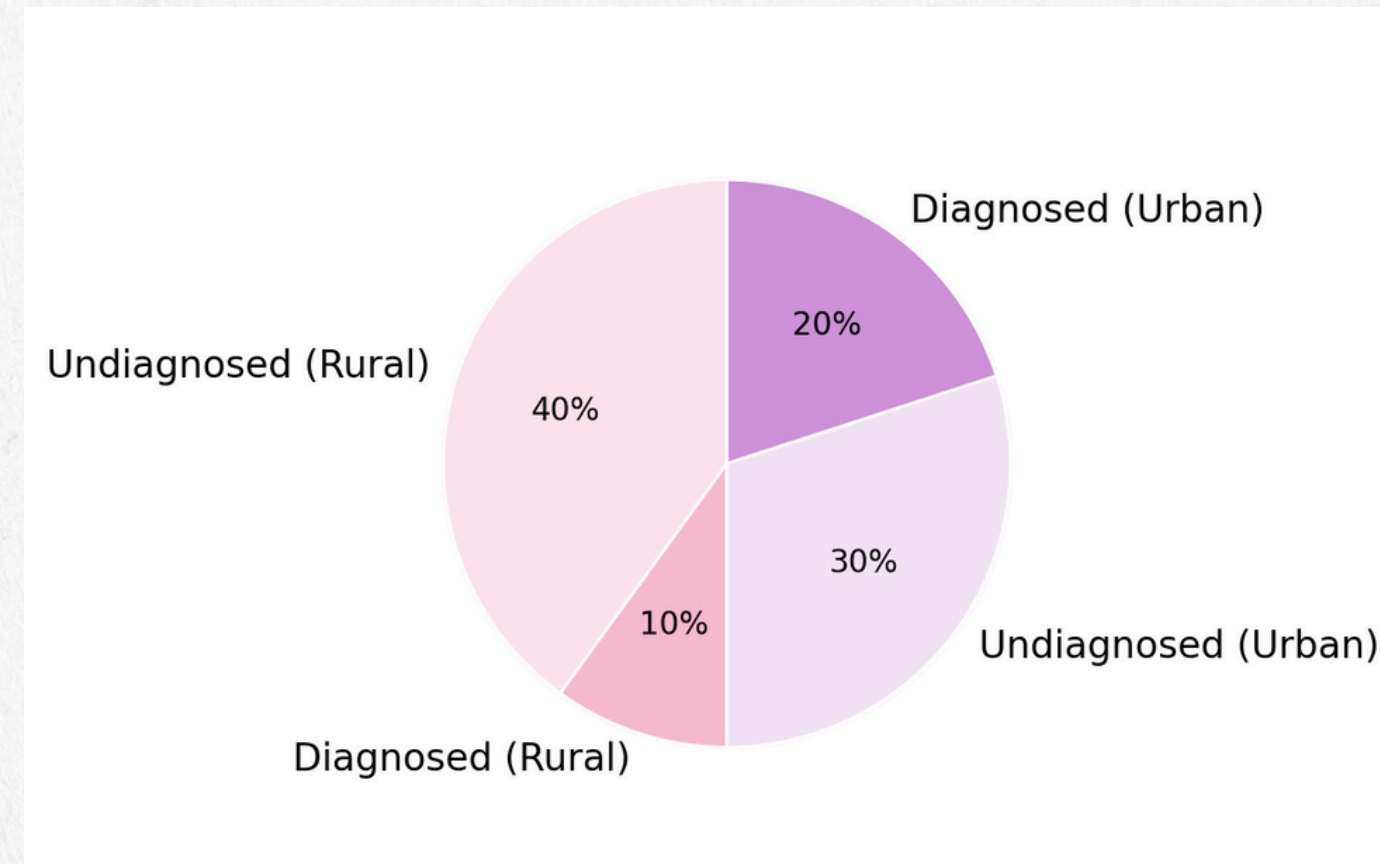

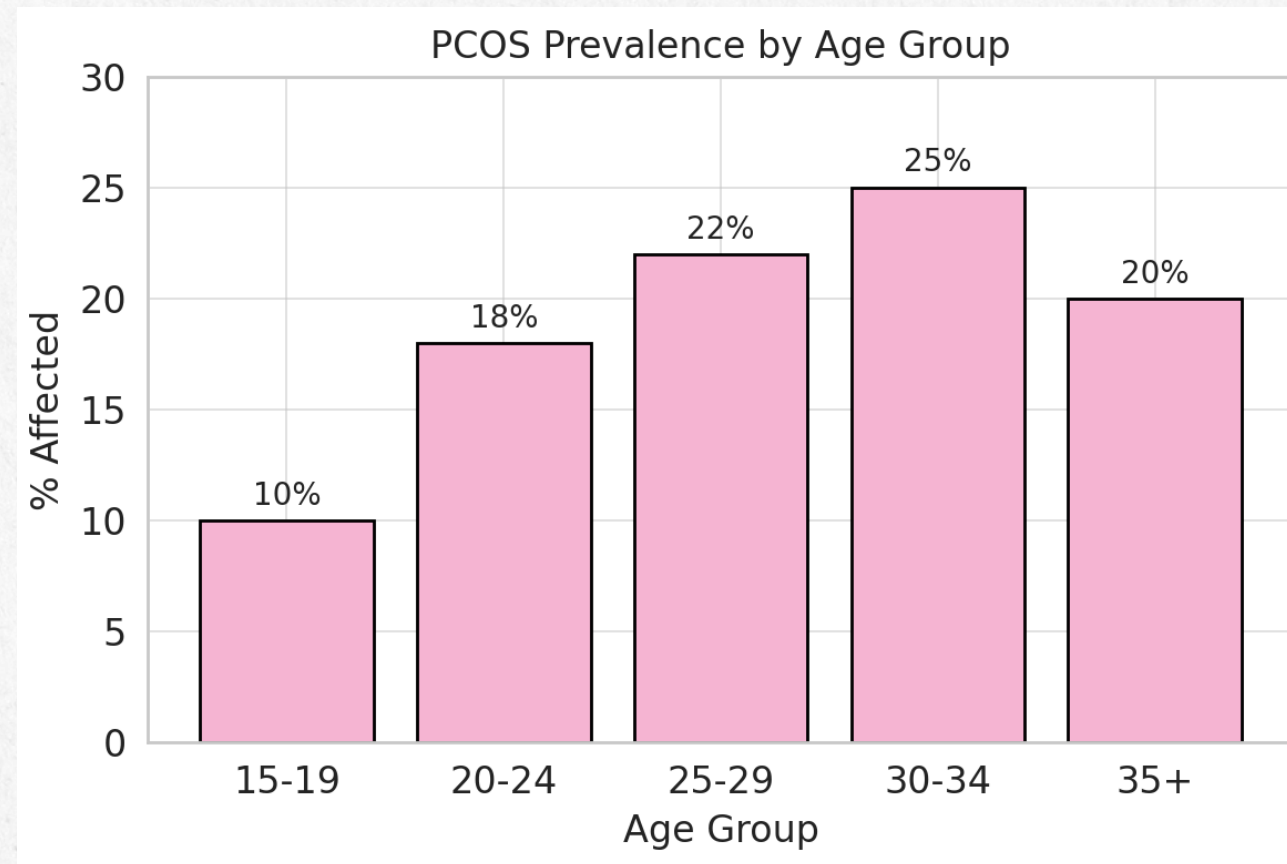

INNOVATION AND UNIQUENESS

- Symptom-based PCOS risk check
- AI-powered ultrasound image analysis
- Voice-enabled, multilingual interface
- Nearby doctor finder via map data
- Personalized tips and health education
- Simple, supportive, woman-friendly design

SOLUTION STATISTICS

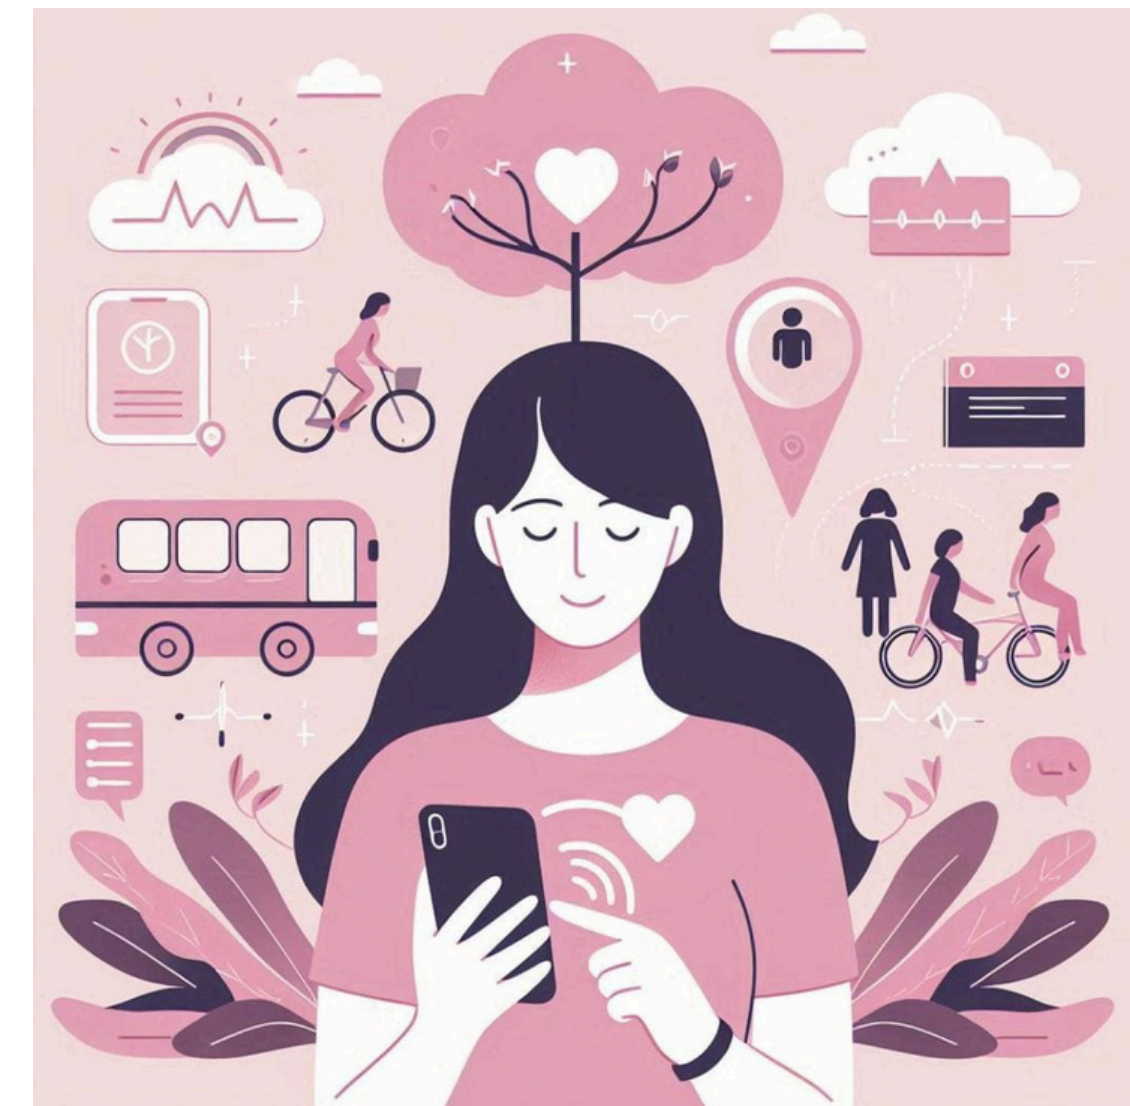

SUSTAINABILITY AND SDG ALIGNMENT

OvaAI aligns with multiple UN Sustainable Development Goals:

- **SDG 3** : Good Health & Well-being – Enables early PCOS detection and improves overall women's health.
- **SDG 5** : Gender Equality – Focuses on a women-specific condition and empowers users through education and access.
- **SDG 9** : Industry, Innovation & Infrastructure – Applies AI and open data for innovative healthcare delivery at scale.

OvaAI bridges technology and impact, making it a meaningful contributor to global development goals.

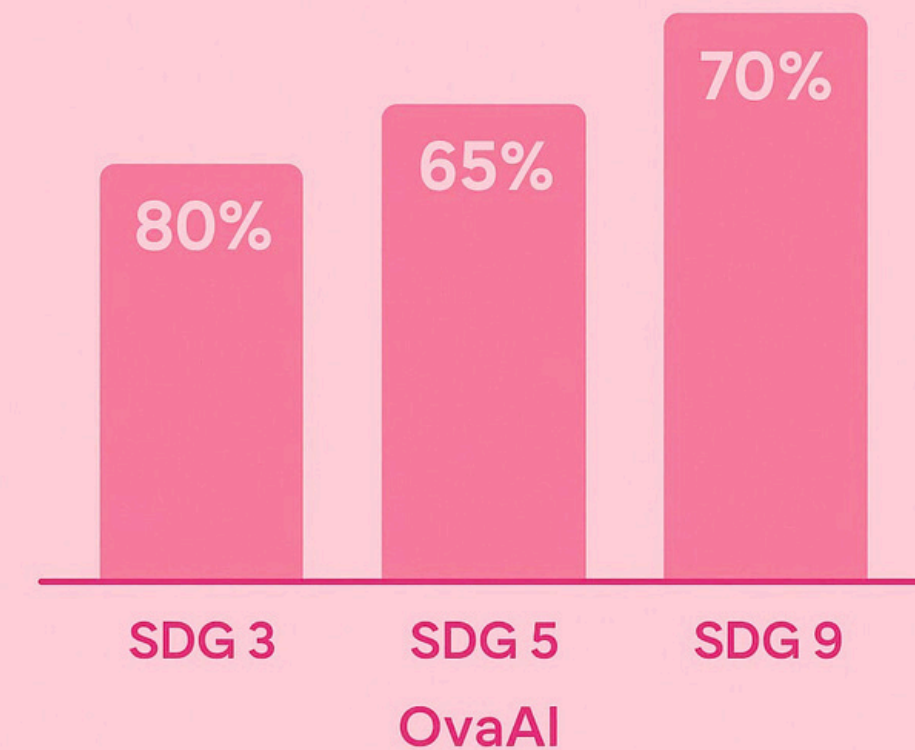

SUSTAINABILITY AND SDG ALIGNMENT

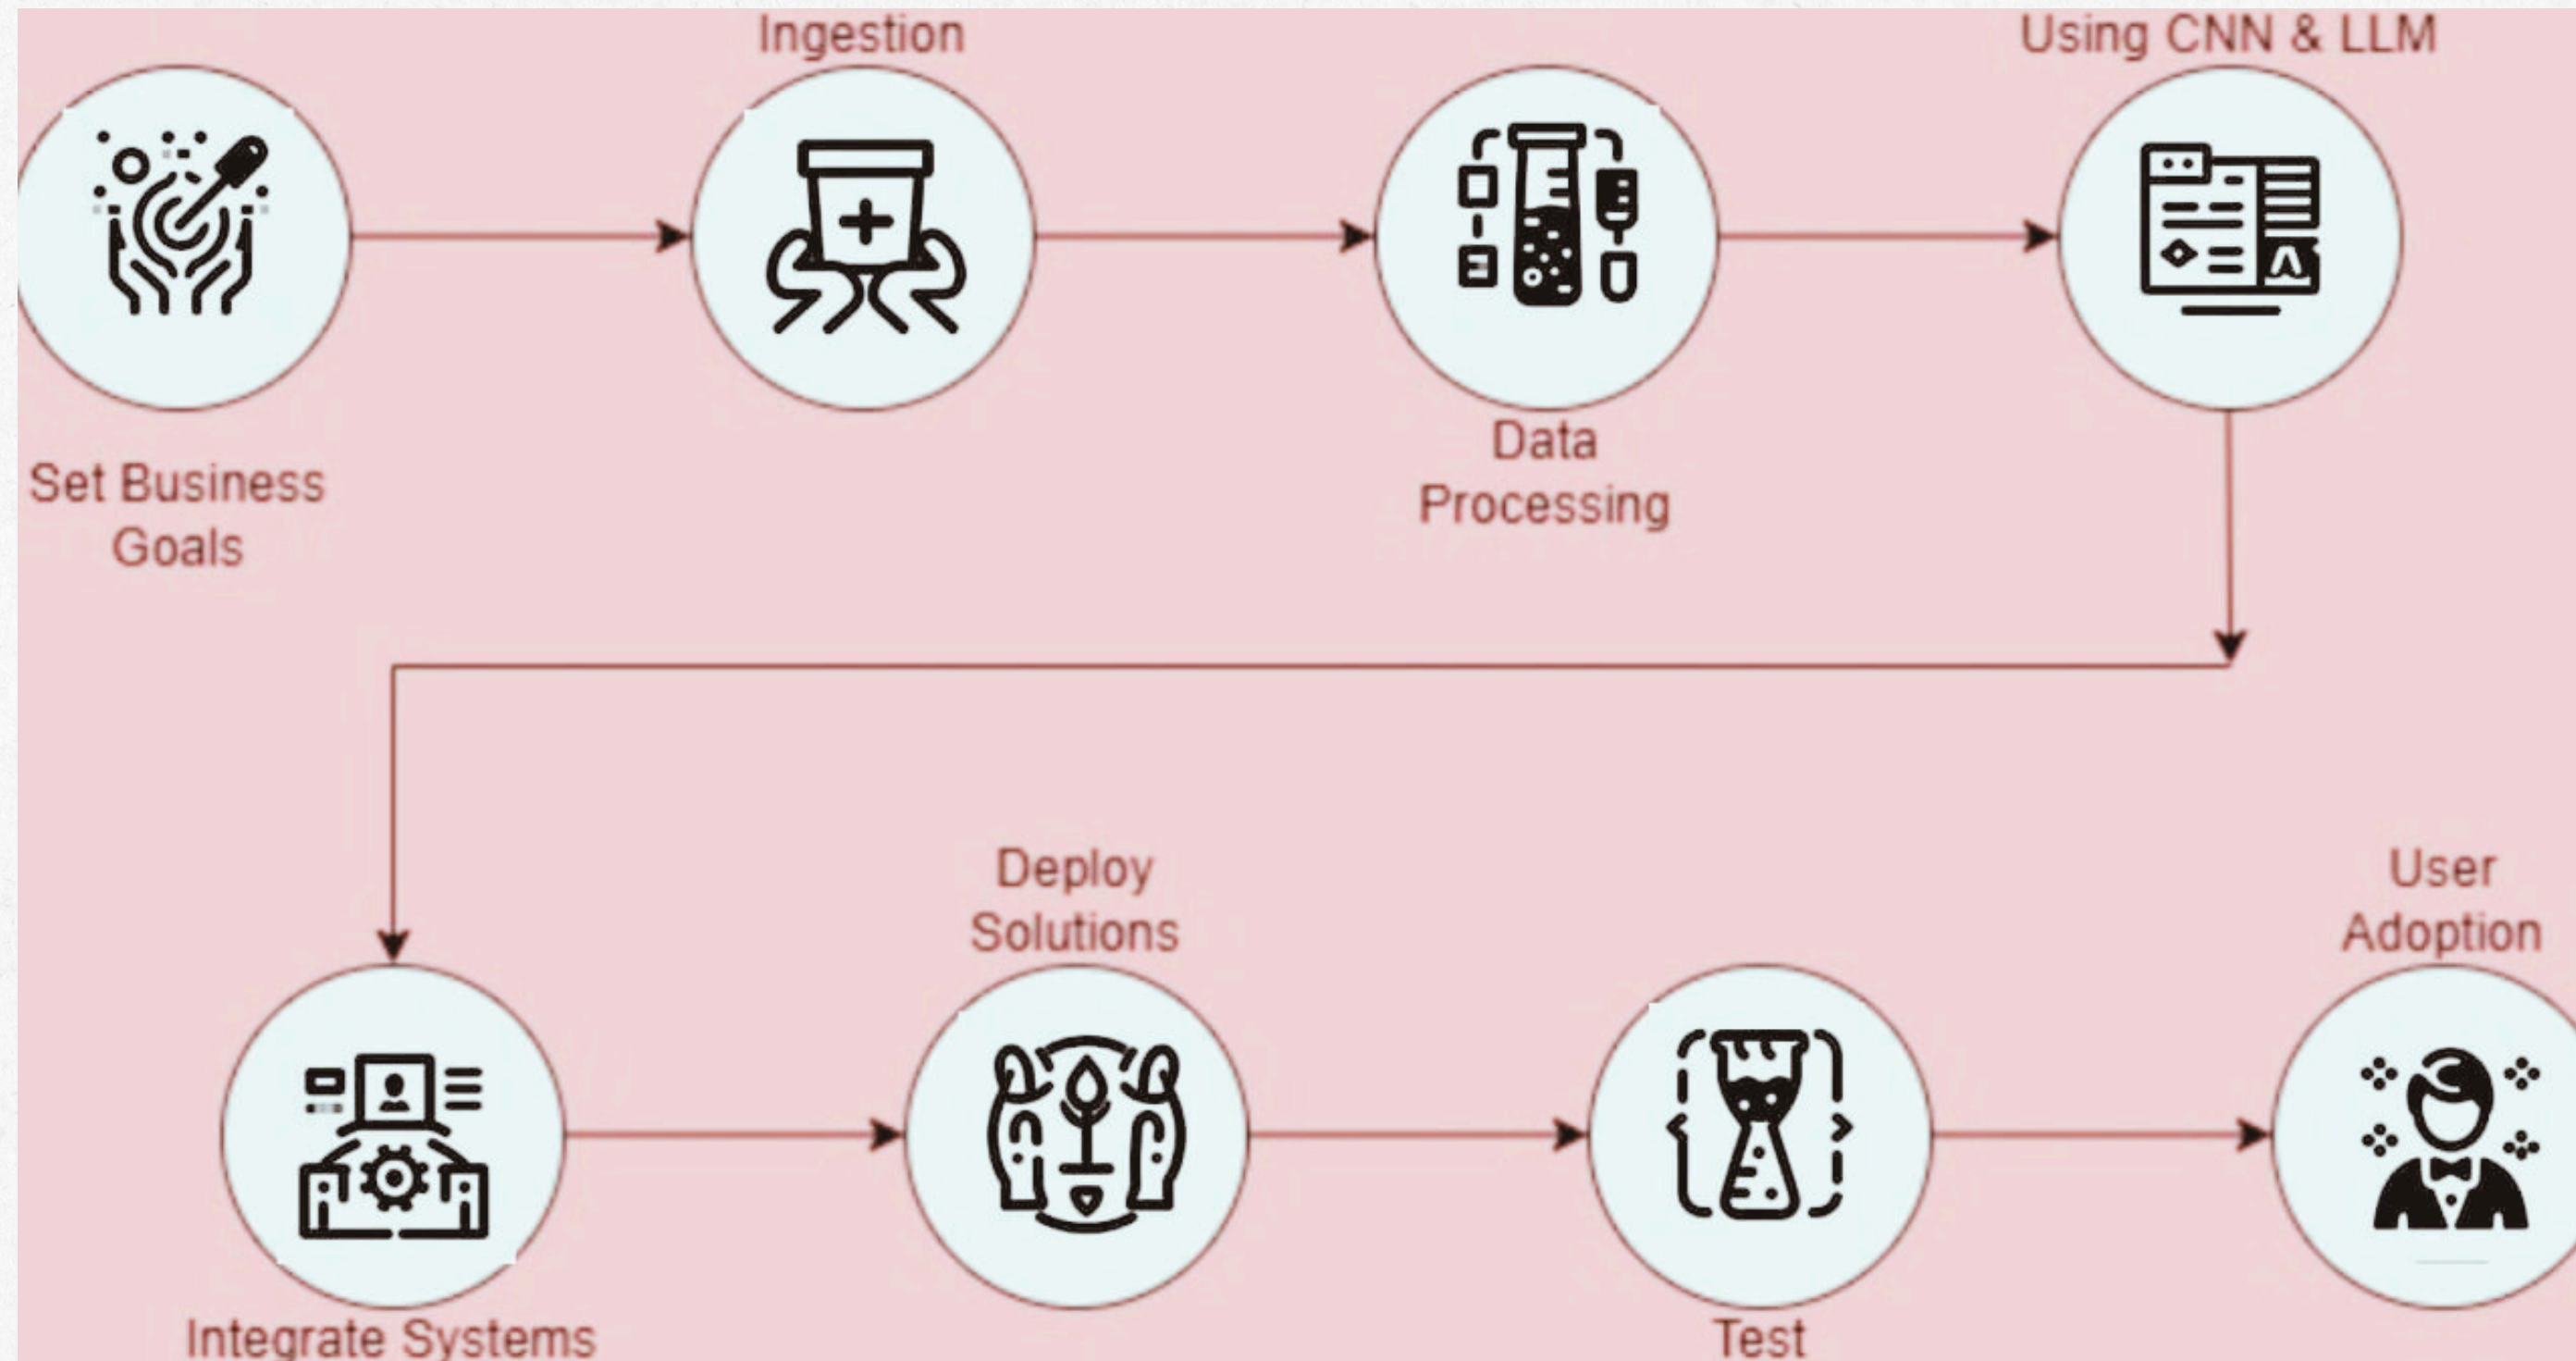

OvaAI is designed as :

- accessible digital health care
- scalable and low cost
- reduces burden on healthcare system
- Enables early detection and complications
- multilingual support
- long term adaptability in remote areas

SDG Alignment

IMPLEMENTATION

IMPACT

- Reduces PCOS-related complications
- Lowers long-term healthcare costs
- Promotes preventive healthcare
- Improves quality of life for women by enabling timely care, lifestyle guidance,
- Contributes to gender equity by addressing a neglected area of women's health
- Strengthens digital health ecosystems in low-access and rural regions

BUDGET PLANNING

OvaAI - Concise Fund Utilization Plan (₹1,00,000)

Category	Amount (₹)	Purpose
AI Model Enhancement	₹20,000	Improve symptom/image prediction
Smart Patch (20 units)	₹10,000	Prototype wearable patch
Mobile App (Offline)	₹15,000	Build low-end phone app
Voice & Translation	₹10,000	Multilingual voice features
NGO & Health Camps	₹15,000	Rural outreach with ASHA/NGOs
Hosting & Storage	₹5,000	Host OvaAI & store data
Medical Validation	₹15,000	Expert medical feedback
UX & User Testing	₹5,000	Refine interface via users
Contingency	₹5,000	Backup for misc. needs

CONCLUSION

OvaAI - Empowering Women Through Smart Healthcare

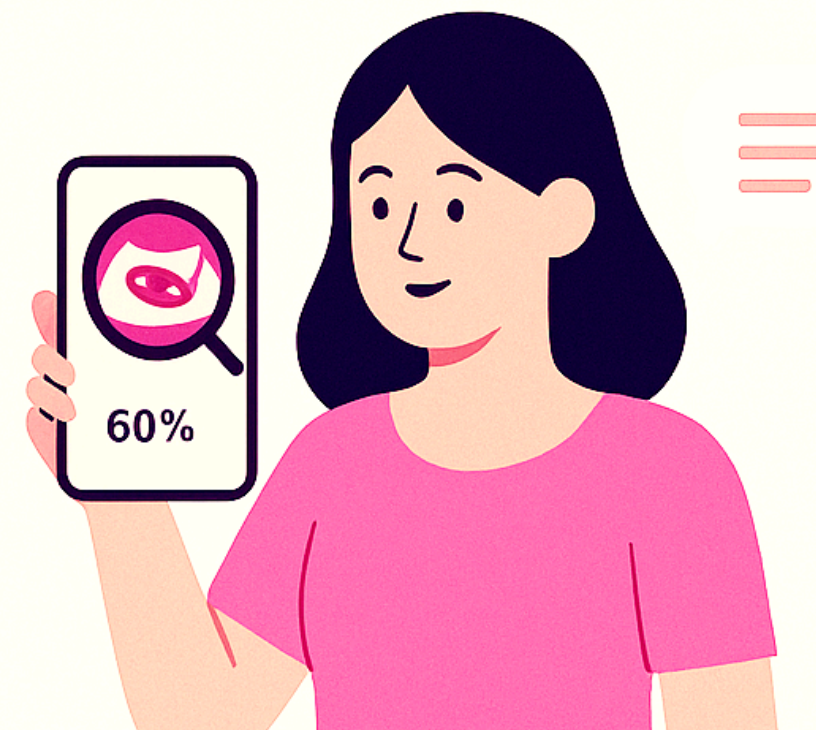

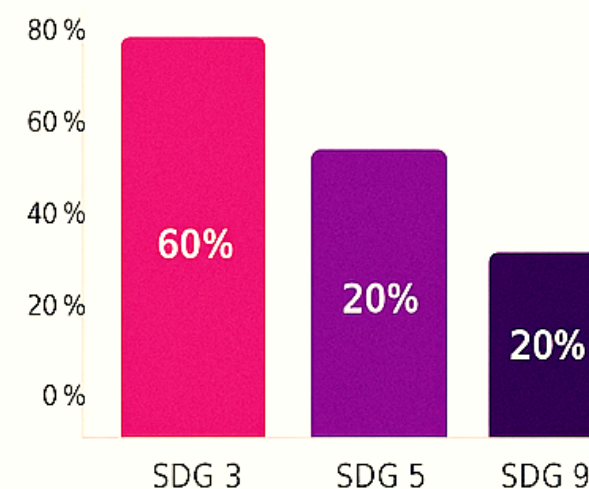

Affordable • Private • Multilingual • AI-Driven

OvaAI bridges the gap in early PCOS detection using smart wearable tech
intuitive voice-enabled tools that empower women in rural communities

☐ ₹300 Smart Patch ☐ 5+ Languages ☐ Works Offline ☐ Aligned with SDG 3
